

Errata

Mehrnaz Farzam Far

Model Order Reduction for Simulation and Control of Synchronous Machines

School of Electrical Engineering

Aalto University publication series DOCTORAL DISSERTATIONS 35/2019

Date of Errata: 23.5.2019

Chapter 3.3, page 50, equation 3.23

The projection operator Φ does not require transpose symbol T:

$$P_r(\Psi a_r) = K_r + \Psi^T \Phi (M^T \Phi)^{-1} M^T (P(\Psi a_r) - K) \Psi$$

Chapter 4.4.2, page 71, line 12

The LEMs feed the output phase current to the SCU from the VLT5004...

Chapter 4.4.3, page 72, line 23

..., but different execution time, due to the...
